

## ARGENTINA CROP TO BE SOLD SOON

European Countries Will Have to Come to United States to Secure Their Grain — Russian Crop Still Held Up.

By Joseph E. Pritchard.

CHICAGO, Feb. 27.—Australia, which is generally an exporter of breadstuffs, is now taking Argentine wheat in liberal quantities because of crop failure in that country. In addition to this, Italy and Russia have bought freely of late and the exportable wheat surplus of the Argentine Republic is being absorbed and it will be moved out as rapidly as vessels can be secured for its transportation.

Cablegrams received from Buenos Ayres Saturday said that the exportable surplus has been reduced. One cable reported the amount of wheat available there for shipment at 14,000,000 bushels and another cable placed the surplus at 92,000,000 bushels. The fact that the countries named above—along with England, France and Holland—are buyers of wheat in the southern hemisphere, shows that those countries will be obliged to again come to North America for supplies, and that at no far distant day as the Argentine grain supply will soon be all sold.

The Russian situation still hangs in the balance and the exportable surplus of 250,000,000 bushels now held there is not likely to come out for some little time, although the cables today said that the allies are bombarding the forts in the center of the Danubian and information was volunteered from Lemberg that there is likelihood of free shipment of wheat out of Russia at no far distant day.

The cash wheat trade at Chicago, as well as at the seaboard, insofar as public reports of takings are concerned, was at a standstill Saturday. This was probably because of the light offerings as nearly all exporters are said to be sold ahead and that they are now securing the northwest as well as the southwest for cash wheat with which to fill their orders.

A Minneapolis message to a Chicago concern said that while they have a little over 12,000,000 bushels of wheat in the elevators there, stocks are decreasing rapidly and they will continue to fall off until supplies are exhausted, which will not be long. This message claimed that the wheat situation in the northwest is the strongest ever known; that it will be impossible to secure additional amounts of contract wheat until next September.

Advices were shown of 2-3-8-2 1-2c in corn and 1-1-4-2 1-2-3c in oats. The best prices were fairly well held and the strong houses in the trade are in the buying. The country movement of both corn and oats was smaller as the weather has been unsettled in parts of these two grain belts. Cash sales of corn here Saturday were 755,000 bushels of which 50,000 bushels were to exporters. Oats sales were 100,000 bushels of which 50,000 bushels were to exporters.

Some of the buying in the provision market was the result of the advance in grain and the reactions and advances showed good buying by strong hands. The cash trade in meats and lard continues unusually slow and local stocks of manufactured products are expected to show liberal increases for the latter half of February.

### FOUR SECTIONS TO MEET

The four sections of the Associated Charities will meet Monday afternoon in the offices in the Jefferson bldg. Two-minute reports of each organization represented in the councils will be heard, and Dr. Abraham Cronbach will deliver an address and will have charge of the program. The meeting will be called at 5 o'clock.

CORN—Paying 75c; selling at 85c to 95c.  
OATS—Paying 55c; selling at 62c to 65c.  
CLOVER—Paying \$8.00; selling at \$10.00.  
TIMOTHY—Selling at \$4.00.  
ALFALFA (Montana grown)—Selling at \$11.00.

**FLOUR AND FEED.**  
(Corrected daily by Knoblock and Ginz, Hydraulic Ave.)  
WHEAT—Paying \$1.42 per bush.  
OATS—Paying 22c per bush; selling at 25c per bush.  
CORN—Paying 75c per bush; selling at 85c per bush.  
RYE—Paying \$1.00 per bush.

**LIVE STOCK.**  
(Corrected daily by Major Bros., S. Logan Street.)  
HEAVY FAT STEERS—Fair to good 6c to 6c; prime 6c to 7c.  
HOGS—150 lbs. up \$0.15 to \$0.25.  
LAMBS—Live 5 to 7c; dressed 12 to 14c.

### MUST FILE WITHIN TWO MONTHS FOR EXEMPTION

Affidavits of Mortgages Filed Between March 1 and May 1 Will Secure Tax Release.

During a period of two months beginning Monday, March 1, affidavits may be filed with the county auditor for the purpose of securing mortgage tax exemptions. These affidavits may be made out before anyone but it is necessary to have them recorded by the county recorder and to have them filed with the county auditor. The tax exemption amounts to \$700 on property with an assessed valuation of \$1,400 or more. Otherwise the exemption is for half of the assessed valuation of the property.

Many persons fail to profit by the exemption for the reason that they fail to file at the proper time. The idea has been general that the filing should be done before March 1 when as a matter of fact it must be done during March and April.

If a bill, which has been passed by the legislature, is approved by the governor, the mortgage exemptions will be increased from \$700 to \$1,200. This bill has been opposed on the grounds that it will tempt large property holders to mortgage their property in order to avoid paying their full share of taxes.

**WAS FINED \$10.**  
Joseph Kocis, a saloon keeper at Division and Pine sts., was fined \$10 and costs for selling liquor on a legal holiday in city court Saturday morning. The finding was the result of testimony of Harry Josephson, clerk of the board of safety, who with another man, entered the place on Lincoln's birthday, Feb. 11, and bought four bottles of beer, two of which were introduced as evidence.

## CONSTIPATION, COLDS, HEADACHES, REGULATE YOUR BOWELS! 10 CENTS

Furred tongue, Bad Colds, Indigestion, Sallow Skin and Miserable Headaches come from a torpid liver and constipated bowels, which cause your stomach to become filled with undigested food, which sours and ferments like garbage in a swill barrel. That's the first step to untold misery—indigestion, foul gases, bad breath, yellow skin, severe colds, everything

**CANDY CATHARTIC**

ALSO 25 & 50 CENT BOXES  
WORK WHILE YOU SLEEP

## FRESH ADVANCES MADE ON STREET

Motor Issues Lead on Excellent Report for 1914 and Prospects for Further Prosperity—Steel is Steady.

By Broadway Wall.

NEW YORK, Feb. 27.—Stocks were quiet Saturday, not a single issue recording a turnover of even 10,000 shares. There was a continuation of the firm undertone recently displayed and fresh advances were secured by specialties, motor issues as usual leading. Maxwell Motors first preferred sold up to 65. General Motors gained 2 points and Willis-Overland 3 1/2. Both Studebaker and Goodrich advanced nominally.

Excellent reports of last year's results and strong indications of prosperity during 1915 have encouraged speculation in these issues and further advances are generally expected. American Beet Sugar, Brooklyn Rapid Transit, Interborough-Metropolitan and Third Avenue were strong. Oil issues were reactionary on the disappointing showing made by California Petroleum.

Steel issues were steady and dull and copper stocks firmer on a point rise in Amalgamated. Equipment issues eased off on the poor showing by the Baldwin Locomotive company which today disclosed a deficit for the year of \$1,449,000 compared with a surplus in 1913 of \$2,217,000. Unfortunately for these issues there are no indications of any immediate improvement in business.

Missouri Pacific was firm, crossing 12 on the rumor that many of the differences regarding the control of the property had been settled during the week. The story runs that Kuhn, Loeb and company will have free control of the coming election and that plans are on foot to extend the notes and bring about a friendly reorganization without the necessity of a receivership or any immediate assessment on the stock. Excellent crop conditions on the system are said to justify the hope that increased earnings will enable the new board of directors which will consist of a strong body of representative men to work out plans without immediate appeal for outside funds.

Missouri, Kansas and Texas was

that is horrible and nauseating. A Cascarets tonight will surely straighten you out by morning—a 10-cent box will keep your head clear, stomach sweet, liver and bowels regular and make you feel cheerful and jolly for months.

Don't forget your children—their little insides need a good, gentle, cleansing, too, occasionally.

heavy on sales against shipments received from abroad.

The arrival of two mail steamers was also reflected in renewed heaviness in the bond market with increased offerings for foreign account. Chesapeake and Ohio convertible 4-1/2's were heavy, dropping to 70. Central Pacific first 4's were active and lower and there was a renewal of selling in the Northern Pacific issues and Southern Pacific bonds for German account. Banking circles are discouraging active speculative operations in the stock market.

### AN INTERESTING SIDE-LIGHT ON TIRE ADJUSTMENTS.

The bed-rock basis for judging tire mileage service is in the adjusting department, according to A. D. Lyman, chief adjuster for Diamond Tires, Akron, Ohio.

"Getting right down to brass tacks on tire service means getting the facts on how tires have performed during any certain period," says Mr. Lyman. The tires which show immensely increased sales and greatly reduced adjustments certainly are tires the majority of motorists are looking for. "Diamond Tires were remarkable in 1914 because of the falling off in adjustments. And at the same time the Diamond sales jumped enormously. These things mean that motorists found Diamonds gave them the long, uninterrupted service they wanted for their money."

"Ideal tire service is that which has no interruptions of adjustments or replacements—a service which is continuous from the day of purchase to the scrap pile, and which includes long mileage. This is the kind of service Diamonds have been rendering and still are rendering, and the increases in sales merely indicate that more and more motorists are learning of these wonderful Diamond performances."

"The case of the Diamond retailer who reported sales of 4,000 tires with only two adjustments is typical of present-day Diamond deeds. Decreased value Diamond Tires have for the man at the wheel."

**HUSBAND WANTED TO ROAM.**  
Gertrude Foker of Mishawaka, has petitioned the superior court to grant her a divorce from Floyd Foker. She says that they were married in 1910 and that the defendant gave way to his "roving and tramp like disposition" in 1913 and deserted her. She asks for \$500 alimony and for the custody of her two children.

**FLATTERY.**  
Mother—Why don't you yawn when he stays too long? He'll take the hint and go.  
Daughter—I did, and he told me what beautiful teeth I had.

## Reducing the Cost of Upkeep—

Ball Bearing; Long Wearing

## THE INSTALLATION of L. C. Smith & Bros. Typewriters

is invariably followed by the discovery that the bills for ribbons are much less than before. A large corporation recently found that its ribbon expense was cut in two. This is not an accident. It is the result of the mechanical construction that makes the L. C. Smith & Bros. cheapest to maintain.

The ball bearings give light touch and eliminate pounding impact. The ribbon is actuated by the carriage, not the typebar. The ribbon mechanism is automatic, so that the ribbon reverses at the instant the end is reached and without added strain.

Low ribbon cost, low cost of maintenance and the highest efficiency—these are guaranteed to L. C. Smith & Bros. users.
